FleetOTG

YOUR FLEET MAINTENANCE MANAGER

KNOW WHAT YOU'RE SPENDING ON YOUR FLEET'S MAINTENANCE, AND WHY.

Fleet OTG replaces spreadsheets, phone calls and chat approvals with one job card for every repair. Here is what goes wrong, and how it is fixed.

1 EVERY APPROVAL ON RECORD

PROBLEM Repairs get approved by chat or phone call, and nobody can say later who said yes.

FIX Job cards, quotations and invoices are approved with the person's name and the time. Only the administrator may decide on their own request, and it is recorded.

2 ONE CARD PER REPAIR, EVEN OFFLINE

PROBLEM History is scattered across spreadsheets, receipts and chats, and written up days later.

FIX One job card per repair, with every step logged. Fill the Excel form in at the workshop with no internet and upload it later.

3 WORKSHOPS QUOTE FROM A PHONE

PROBLEM Quotes arrive as phone calls and photos, then get lost or disputed.

FIX The workshop gets a one-time link on its own phone number and sends its estimate, recorded against the job card number.

4 INVOICES CHECKED BEFORE PAYMENT

PROBLEM A workshop's invoice comes in higher than the price you agreed.

FIX Every invoice is checked against the approved quotation before payment, and whoever approved the card cannot check its invoice.

5 COST LANDS ON THE RIGHT VEHICLE

PROBLEM Nobody knows what each vehicle really costs, or who had it at the time.

FIX Spend is counted per vehicle and per period against its budget, and follows who held the vehicle.

6 REPEAT REPAIRS ARE FLAGGED

PROBLEM The same fault is paid for again and again.

FIX A fault coming back on the same vehicle is shown, so you can see what keeps failing and why.

7 DRIVERS SEE THEIR OWN VEHICLE

PROBLEM Drivers ask the office what their vehicle cost, and access would show them the whole fleet.

FIX A driver sees only the job cards of the vehicle they hold and what it has cost, and nothing else.

8 A REAL PERSON BEHIND EVERY ACTION

PROBLEM Shared logins mean no action can be traced to anyone.

FIX Every login is tied to an employee code and a role, so each action traces back to a real person.

COMING SOON

BUILT TO COUNTER CORRUPTION: INVITATIONS THAT ONLY REACH THE PERSON THEY ARE MEANT FOR.

Each person will receive their sign-in link by WhatsApp or SMS on their own phone number, sent by the system itself, so no administrator ever sees or handles the link. No borrowed logins, no one taking over someone else's account.

PRICED TO BE EASY TO SAY YES TO

One month costs about the same as a month's wage for an unskilled labourer. Start with a 3-day free trial.
