FleetOTG

YOUR FLEET MAINTENANCE MANAGER

KNOW WHAT YOU'RE SPENDING ON YOUR FLEET'S MAINTENANCE, AND WHY.

ONE JOB CARD, EVERY STEP ON RECORD. ORANGE STEPS CARRY THE PERSON'S NAME AND THE TIME.

REQUESTED → APPROVED → QUOTE APPROVED → WORK DONE → INVOICE CHECKED → CLOSED

1 EVERY APPROVAL ON RECORD

PROBLEM Repairs get approved by chat or phone call, and nobody can say later who said yes.

FIX Approvals carry the person's name and the time. Only the administrator may decide on their own request, and it is recorded.

2 ONE CARD, EVEN OFFLINE

PROBLEM History is scattered across spreadsheets and chats, and written up late.

FIX One job card per repair, every step logged. Fill the Excel form offline and upload it later.

3 WORKSHOPS NEVER SIGN UP

PROBLEM Workshops will not learn another system, so quotes arrive as calls and photos.

FIX You add the workshop. It sends its estimate or invoice by a one-time phone link or an email reply, recorded against the job card.

4 INVOICES CHECKED FIRST

PROBLEM A workshop's invoice comes in higher than the price you agreed.

FIX Every invoice is checked against the approved quotation, and not by whoever approved the card.

5 COST LANDS ON THE RIGHT VEHICLE

PROBLEM Nobody knows what each vehicle really costs, or who had it at the time.

FIX Spend is counted per vehicle, department and period, and follows who held it.

6 REPEAT REPAIRS ARE FLAGGED

PROBLEM The same fault is paid for again and again.

FIX A fault coming back on the same vehicle is shown, so you see what keeps failing.

7 DRIVERS SEE THEIR OWN VEHICLE

PROBLEM Drivers ask the office what their vehicle cost, and odometer readings come late.

FIX A driver sees only the job cards of the vehicle they hold, and sends odometer or hours by a phone link. Licence and service-due reminders arrive on time.

8 EVERY ACTION HAS A NAME

PROBLEM Shared logins mean no action can be traced to anyone.

FIX People join by invitation with a WhatsApp code and a valid licence, so each action traces to a person.

PRO

PRO: AI THAT READS WORKSHOP PAPERWORK.

For busy fleets, with one price for every fleet size. The AI reads what a workshop sends, fills in the form and compares logistics quotes. Staff raise job cards, cargo and trip requests on WhatsApp, with short forms coming soon. A person always decides. Any Basic company can try it free for 3 days.

BASIC HAS THE WHOLE WORKFLOW

Basic costs about a month's wage for an unskilled labourer. Pro costs less than a fleet manager's monthly salary. Start with a 3-day free trial, then try Pro free too.
